Interstate Compact

Interstate Compact. This rule will become effective upon passage by the Audiology and Speech-Language Pathology Interstate Compact Commission as provided in Section 10 of the Audiology and Speech-Language Pathology Interstate Compact.

3.1 Implementation of Criminal Background Check:

To avoid default, member states must have completed all required processes, requirements, and applications necessary to request the ability to receive the results of the Federal Bureau of Investigation (FBI) record search on criminal background checks, as required by the Compact. Deference will be given to member states who can demonstrate that they have engaged in good faith efforts to implement the FBI Criminal Background Check including, but not limited to, introduction of related legislation, negotiations with FBI state information bureaus, etc.

Results of the criminal background check shall be reviewed solely by the member state in accordance with state law.

Communication between a member board and the Interstate Commission and communications between member boards regarding verification of Audiologist or Speech-Language Pathologist eligibility for a license/privilege through the Compact shall not include any information received from the FBI relating to a federal criminal records check performed by a member board under Public Law 92-544.

A member state cannot participate in issuing compact privileges until such member state has completed the requirements to fully implement the FBI Criminal Background Check requirement established in Section 3.B.1 of the Compact. As used in Section 3.B.1 of the Compact, full implementation of the FBI Criminal Background Check requirement means that the member state's licensing board is using the results of the FBI record search on criminal background checks in making licensure decisions for all applicants seeking an initial privilege to practice as an Audiologist or Speech-Language Pathologist in the member state.
